

Suggestions from Technical Advisory Committee

Transparency

Suggestions based upon observations similar to those cited in JLARC report

- Use electronic applications, processing and reporting for public transparency, accountability and public input; (E-1)
- Provide transparency during all phases of the CON process (pre-analysis by staff, post-analysis by staff, pre-public comment, and post-public comment) of data related to:
 - Volumes.
 - Application types.
 - Appeals or resolutions.
 - Denials.
 - Compliance.
 - Other related application data and information. (E-6)
- Provide for public disclosure of analysis, including all data and data sources used to reach analysis, prior to close of public comment; (B-2)
